DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 12 August 2009.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-3 and 5-13 are pending in the application.

The 103 rejection of claims 1-3, 5-10 and 13 under 35 U.S.C. 103(a) as being unpatentable over Dingwen et al., {JP 4517402} in view of Kato et al., {US 4,874,890} is maintained for the reason stated in the previous Office Action dated 05/12/2009.

Applicants' arguments filed 12 August 2009 have been fully considered but they are not persuasive because Applicants claimed process is obvious in view Dingwen et al. and Kato et al. because all the claimed elements (D_2O , platinum catalyst, etc.) were known in the prior arts and one skilled in the art could have combined the elements as claimed by known methods with no change in their respective functions, and the combination would have yielded predictable results to one of ordinary skill in the art at the time of the invention. The variation of the reaction medium (acidic medium, basic medium or neutral medium) in a chemical reaction is a well-known chemical practice to optimize the process efficiency of the system and does not constitute a patentable distinction absent a showing of criticality.

Applicants further argue that claim 1 does not require D_2 gas. Applicants' argument is not persuasive because Applicants process does not exclude the use of D_2 gas in claim I as the claim uses the open ended language "**comprises**" which allows for the use of different reagents than the ones recited in the claim, for example D_2 gas.

THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
